Cash and Fixed Interest

First Sentier Wholesale Strategic Cash: Given the rates available for cash options we have an 'enhanced' cash option noting that the portfolio consists of high quality money market securities (including asset backed securities), with predominantly short maturities, to achieve a very stable income stream.

Pimco Wholesale Global Bond

 **Silver**

Our best pick in the global bond category. An experienced portfolio management team backed by Pimco's diligent and deeply resourced team. This benchmark-aware portfolio primarily holds investment-grade government and corporate bonds in developed markets, venturing into high yield, inflation-linked bonds, and securitised and emerging-markets debt when opportunities emerge making it an excellent choice as the anchor for global bonds.

Bentham Wholesale Global Income

 **Bronze**

Our pick for a flexible global bond strategy. The strategy mainly invests across the credit spectrum managing exposure to quality, interest rate and credit duration, maturity and yield. The investment team is highly skilled and experienced and can also draw on the support from offshore experts in the credit field.

Western Asset Wholesale Australian Bond

 **Bronze**

This strategy has robust and yet relatively simple investment process that focusses on mispriced domestic fixed interest securities across sectors. An experienced team support a highly regarded portfolio manager makes this compelling as a core Australian bond holding.

Janus Henderson Tactical Income

 **Silver**

This is our pick for an Australian fixed interest, low duration manager with an absolute return type approach, courtesy of its split benchmark, 50/50 AusBond Bank Bills and AusBond Composite indexes. The investment team is highly experienced, suitably resourced, and cohesive which lends well to execute a strategy that has used its flexibility judiciously in the past.

Global Equities

T. Rowe Price Global Equity – Hedged

Allocating to the hedged version to take into out our overall SAA and CMA views. T. Rowe Price Global Equity is one of our best picks in the global growth category. Scott Berg has overseen this strategy for over a decade, utilising T. Rowe's vast analyst network to seek out underappreciated growth potential. Diversification and emerging markets exposure are also key characteristics of the portfolio.

Neutral

Colonial First State Wholesale Index Global Share – Hedged

Allocating to the hedged version to take into our overall SAA and CMA views. Low cost, efficient core exposure to Australian Bond benchmark. CFS utilising the expertise of State Street Global Advisers for this strategy.

 Bronze

MFS Wholesale Global Equity

Another one of our long-standing favourites forming the core of our global equity exposure. A long-standing sustainable growth-oriented approach executed by expert personnel. Its focus on stock level analysis is straightforward, emphasising companies that can grow their earnings consistently over a business cycle.

 Silver

Barrow Hanley Global Share

Barrow Hanley is a Dallas-based global value manager with a long pedigree over many decades that demonstrates superiority. We have gained increasing confidence in its relative value approach since it was first brought to market in Australia in 2016. The firm was subsequently acquired by Perpetual, who now distributes it in Australia. It also has more midcap exposure than our other model managers, bringing a point of difference.

 Silver

Pendal Global Emerging Market Opportunities

Providing a dedicated emerging market exposure across the more growth-oriented portfolios. Portfolio managers James Syme and Paul Wimborne have worked together since 2006 joining J O Hambro (part of Pendal) in 2011. Ada Chan, who joined in 2016 as an analyst was promoted to portfolio manager in early 2022. Once a country is deemed investable, they look for companies with high return on capital and return on equity.

 Silver

GQG Partners Wholesale Global Equity

GQG Partners excels in many areas, the first of which is a highly experienced portfolio manager. Lead manager, Rajiv Jain has racked up an impressive record running several funds during long tenures at previous employer Vontobel and now at GQG, which he co-founded in 2016. Jain is well supported by an impressive team of analysts that continue to produce impressive research. The strategy looks for quality growth companies and the team are adept at executing this. Portfolio allocations are move around quickly but it's done to mitigate risks typically and thankfully, Jain and the team have proven their abilities in this field time and again.

 Silver

Property and Infrastructure

Resolution Capital Global Property

Resolution Capital Global Property is one of our strongest conviction strategies within the global property sector. Marco Colantonio, Robert Promisel, Julian Campbell-Wood and founder and CIO Andrew Parsons are each responsible for a quarter of the portfolio. All have considerable experience but bring expertise in different sectors of the global property market under a time-tested investment process. This results in a concentrated portfolio but is reasonable diversified across property sectors and geographical locations.

Magellan Wholesale Infrastructure Fund

An experienced team run a conservative, patient yet detailed process meaning that it's one of our top ideas in infrastructure sector. And it has the runs on the board to prove it with long running returns coming with extremely low risk metrics.

Ironbark Wholesale Property Securities

A differentiated approach and tight-knit team make this our choice for an actively managed AREIT exposure that can deliver incremental returns above the benchmark.
